

BENJAMIN NNAEMEKA

Full-Stack & Native Android Engineer focused on building reliable digital products and automation systems.

Updating the same document every time something changes feels like a poor use of my cycles when I could be busy writing code.

However, your inquiry has unlocked a rather convenient feature: motivation.

If you're reaching out because you want to work together, send me a request and I'll compile a fresh, custom resume tailored to what you're looking for.

Send your request to hi@benjamin-nnaemeka.dev and I'll compile and send it over.
